

HEALTH IN OLD AGE

When one grows old the digestive organs lack vitality, the blood is thinned, appetite fails and the general health may suffer. Tanlac, the powerful reconstructive tonic and system purifier, is the ideal medicine for old folks. It creates an appetite by strengthening digestion through its natural influence, then the whole system is toned up and old folks may enjoy prime health.

Tanlac is sold by all good druggists

BUTTER, POULTRY AND EGGS MARKET

Movement of live poultry has increased and is now above normal for the time of the year, indicating an extremely large amount of poultry available on the farm.

The demand for dressed poultry seems to be lighter than usual, and values are working nearer to a pre-war basis. Prospects for the balance of the year are that conservative values will rule.

Extremely heavy stocks of storage eggs, as shown by the Government report, with production still above normal, has had a depressing effect on the market, and values in the consuming markets are now about

the lowest they have been at any time this season. Indications are that values will have to be kept on a conservative basis to move the current production and surplus storage stocks.

Production of butter for the past week has shown an increase over a few weeks ago, due to better pasturage conditions. The export demand for the time being is filled, and as a consequence, prices have worked to a lower level. Indications are that there will be a good production of butter the balance of the summer and values should be reasonable.

PRESBYTERIAN SUMMER CONFERENCE PLANNED

The sixth annual summer conference of the Kentucky Synod of the Southern Presbyterian church will be held at Jackson, Ky., August 15 to 23, according to Thos. B. Talbott, Superintendent of Home Missions, who will be in charge of the conference. All of the meetings will be held at Lees College and the dormitory will be opened for the use of the delegates. More than 300 are expected to attend.

The conference is divided into three sections. The Sunday School conference, under the direction of the Rev. W. A. Hopkins, Superintendent of Young People's Work in the Kentucky Synod, will open the meeting with a three-days' convention. Immediately following for two days will be the Mountain Workers' Conference, under the direction of Mr. Talbott. Mrs. H. L. Cockerham, Synodical president of the Woman's Auxiliary, will have charge of the women's conference the last three days.

Many prominent speakers in the Presbyterian church and others will have part on the programme, it is said, and the scope of the conference as a whole will be much wider than in former years as heretofore only three days were given over for the entire meeting.

In Berlin, a man accused of killing twenty people hanged himself. He got the right man at last.

HAZARD BANK A PROSPEROUS INSTITUTION

That the Hazard Bank & Trust Company, of Hazard, is a prosperous financial institution is indicated in the statement of condition at the close of business on July 1, 1922. This bank, which was established September 22, 1922, with a capital of \$50,000, has grown and prospered until, in 1922, it had a total of \$440,652.21 on deposit.

THE NEWS is in receipt of a copy of the statement, sent us by J. Irvine Dempsey, formerly of Paris, who is now vice-president of the bank, having been promoted from position of cashier, which he filled acceptably for some years. The statement of comparative resources shows the following: September 22, 1920, \$74,392.90; January 1, 1921, \$241,948.31; July 1, 1921, \$402,709.52; January 1, 1922, \$447,870.11; July 1, 1922, \$502,165.86.

The officers of the bank are: President, B. P. Wooten; active vice-president, J. Irvine Dempsey; vice-president, W. M. Pursifull; cashier, W. E. Ellis.

Wednesday, August 23, Reserved.

Thursday, August 24, Sale of horses in training, including dispersal of Mrs. Louise Viau.

Friday, August 25, Blue Ridge Stud yearlings.

Monday and Tuesday, August 28 and 29, Dispersal of Blue Ridge Stud.

Diamonds Split Asunder.
That diamonds sometimes burst spontaneously is a belief dating back to the Middle Ages, and still widely prevalent, though nobody seems to have actually witnessed this phenomenon. Numerous broken fragments of diamonds are found in the vicinity of the Kimberley diamond mines in South Africa.

RUBBISH IN THE STREAMS.

(J. J. Enloe, in Courier-Journal)
I wish to propose a suggestion with the understanding that I am totally ignorant of any provision for the same project.

Practically all of our streams—rivers, creeks, and branches, that are not navigable—are obstructed with floating material, namely fallen trees, rotten logs, brush, planks, and a variety of old accumulated rafts. Some of them become so bulky that they change the course of the water. That, it seems to me, is not infrequently costly to property owners. Not only that, but so much of that floating material, including a bit of everything, has accumulated in a huge bulk against some of the railroad bridges in this State as to endanger life, or to say the least, the bridge itself.

Would it not be a beneficent undertaking for the State to appropriate a sufficient amount to rid the streams of that congestion of rubbish, and then require the respective counties to see to it that property owners kept the stream beds clear afterwards? With the exception of a big freshet which reaches out from the banks, the whole mess is allowed to occur simply because the property owner permits the cut, or fallen, or loose movable material to remain near or on the banks with a manifest indifference. It ought not so to be.

There is to-day enough burnable material rotting in our streams to warm many a home, which would be glad to get it, all winter through. A long past and present waste could be made a needed, useful fuel.

Then think how much better the stream would look without the age old eyesore obstruction? Many acres of land would be saved by the prevention of new water courses, which a dam of accumulated rubbish causes. Moreover, our streams would then be available for other uses; to wit, fishing, swimming and boating—a much neglected sport, enjoyable exercise, and fine recreation, as well as unsurpassed training for our young people.

BACKACHE IS A WARNING

Pairs People Should Not Neglect
Their Kidneys

Backache is often nature's most frequent signal of weakened kidneys. To cure the pains and aches, to remove the lameness when it arises from weakened kidneys, you must reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Doan's Kidney Pills have been proved good and are especially for weak kidneys. Doan's have been used in kidney trouble for over 50 years. Read Paris testimony.

Thomas A'Hern, proprietor restaurant, 927 Pleasant street, says: "Doan's Kidney Pills are all right and I recommend them highly. I used Doan's some time ago when my kidneys were out of order and my back ached, just over the kidneys. I had dizzy spells and felt sleepy. I lacked ambition to do my work. As soon as I began using Doan's Kidney Pills, which I got at Oberdorfer's Drug Store, I got relief and three boxes cured me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. A'Hern had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

SETS A GOOD PRECEDENT

(Houston Post)

A Cincinnati Police Judge fined a man \$5 for stealing a morning paper from the front porch of a subscriber. The judge said it was not the intrinsic value of the article stolen but the degree of mental distress caused the victim of the theft. "When a man finds his morning paper gone his whole day is spoiled," the magistrate said. Morning newspaper subscribers everywhere will commend this judge. To those who are accustomed to read their paper the first thing in the morning, failure to find it is highly irritating. Many a man would as soon do without his morning coffee as his morning paper. Newspaper circulation managers exert every effort to have their paper delivered regularly and promptly, understanding as they do how it disappoints the subscriber to miss the paper. The Cincinnati judge set a good precedent in assessing a fine against the petty thief.

One day last week a train was late when a man wanted it to be.

Banner Lye

is easy to use

No other lye is packed so safely and conveniently, or is so economical—not a bit wasted. No other lye or soap cleans and disinfects so easily and thoroughly as Banner Lye. It is not old-style lye. Odorless and colorless; the greatest cleanser and disinfectant the world has ever known. Use it for cleaning your kitchen, cellar, sinks, dairy, milk-pans and bottles, for softening water, and the labor of washing and cleaning will be cut in half.

Makes pure soap

and saves money besides. A can of Banner Lye, 5½ pounds of kitchen grease, ten minutes' easy work (no boiling or large kettles), and you have 10 pounds of best hard soap or 20 gallons of soft soap.

Banner Lye is sold by your grocer or druggist. Write to us for free booklet, "Uses of Banner Lye." The Penn Chemical Works Philadelphia U.S.A.

**Back to the
Grain Fields
for Health**

GRAPE-NUTS is a regular "three bags full" of the best food qualities of whole wheat flour and malted barley, carefully mixed and slowly baked—

To develop all their appetizing flavor,

To preserve all their wholesomeness,

And to provide nature's "broom" that keeps the digestive system spick and span.

There's not a bit of artificial sweetening in Grape-Nuts—it just becomes sweet of its own accord in the long baking.

And that enticing flavor—how good it is with good milk or cream! Fruits, too, fresh or cooked, add to the delight of a dish of Grape-Nuts, morning, noon or sundown.

It is a compact, ready-to-eat food—no cooking needed. Why not try it for tomorrow's breakfast?

"There's a Reason"

Postum Cereal Co., Inc., Battle Creek, Mich.
